

The Essential Electronic Agriculture Library Access Guide

The Essential Electronic Agriculture Library (TEEAL) database is a donation from Cornell University, in the United States of America, to Uganda Martyrs University Library. Hence our University is one of the very few Universities in Uganda to benefit from this offer. This database is home to over 200 top scientific journals, with millions of pages of current research. It is a digital library for agricultural research and education. Since its donation it has been listed among our eResources list. To access TEEAL, follow the following steps:

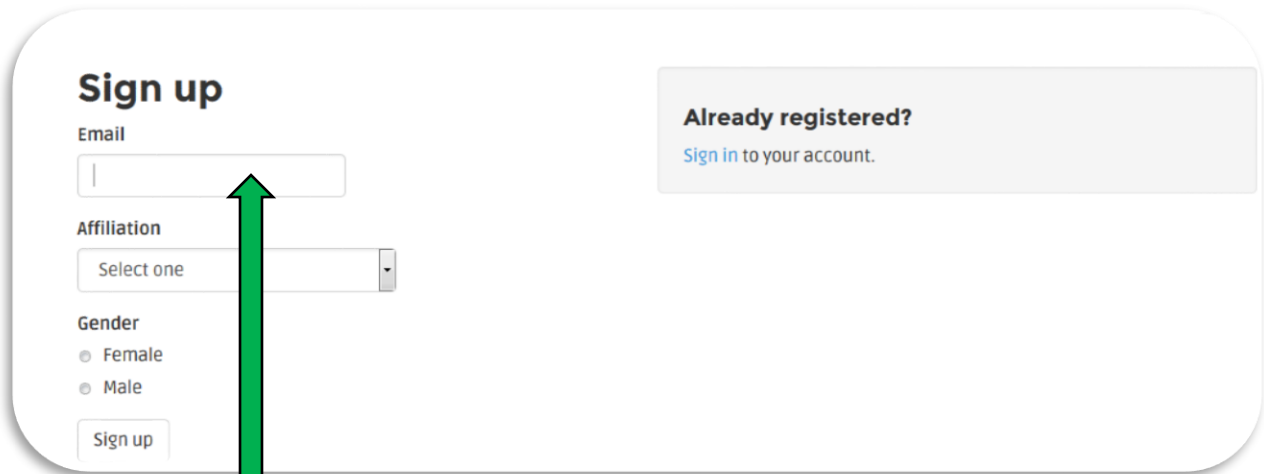

Step one: Registration (gain access rights)

The screenshot shows the TEEAL website interface. At the top left is the TEEAL logo with a green leaf icon. To its right are navigation links: Home, Browse (with a dropdown arrow), About, and Help. Below the logo is a search bar with a dropdown menu set to 'All Fields', a text input field containing 'Search...', and a blue 'Search' button with a magnifying glass icon. A yellow notification banner below the search bar reads 'Please sign in to search and access TEEAL content.' with a close button (X) on the right. The main content area is divided into two sections. On the left, under the heading 'Sign in', there is an 'Email' label above a text input field, and a 'Sign in' button below it. On the right, under the heading 'New user?', there is a blue link 'Sign up' followed by the text 'to search our collections and access full-text documents.' A green arrow points from this 'Sign up' link to an orange callout box.

You have to sign up first in order to sign in

Step two: Registration/ signing in requires an email address

Sign up

Email

Affiliation
Select one

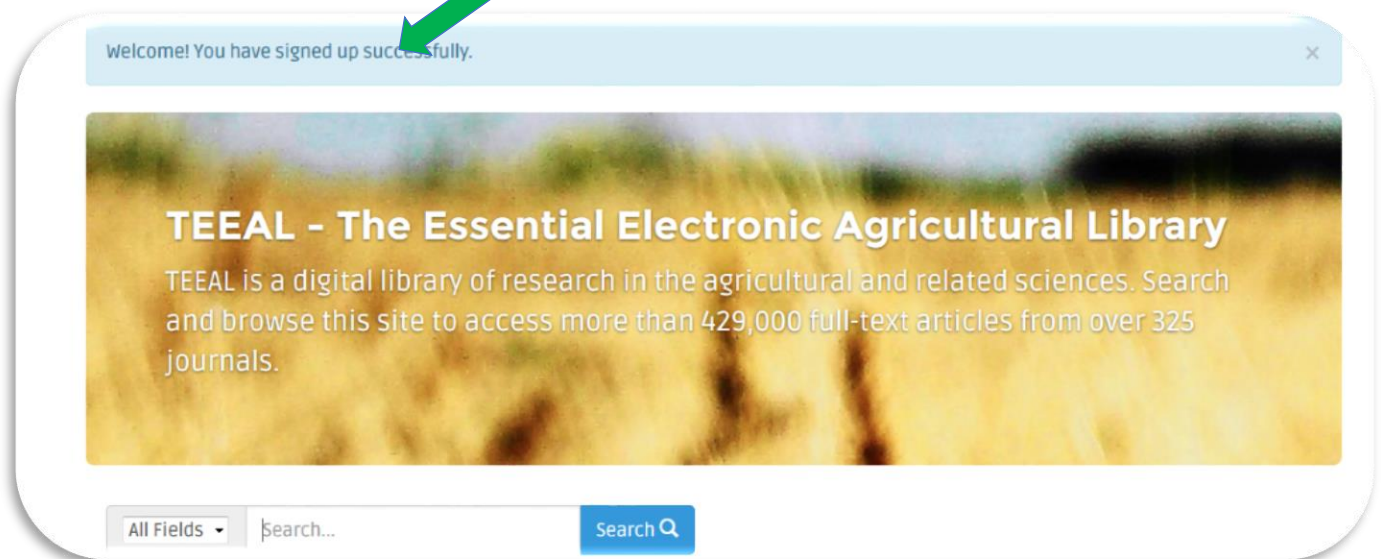

Gender
 Female
 Male

Already registered?
[Sign in](#) to your account.

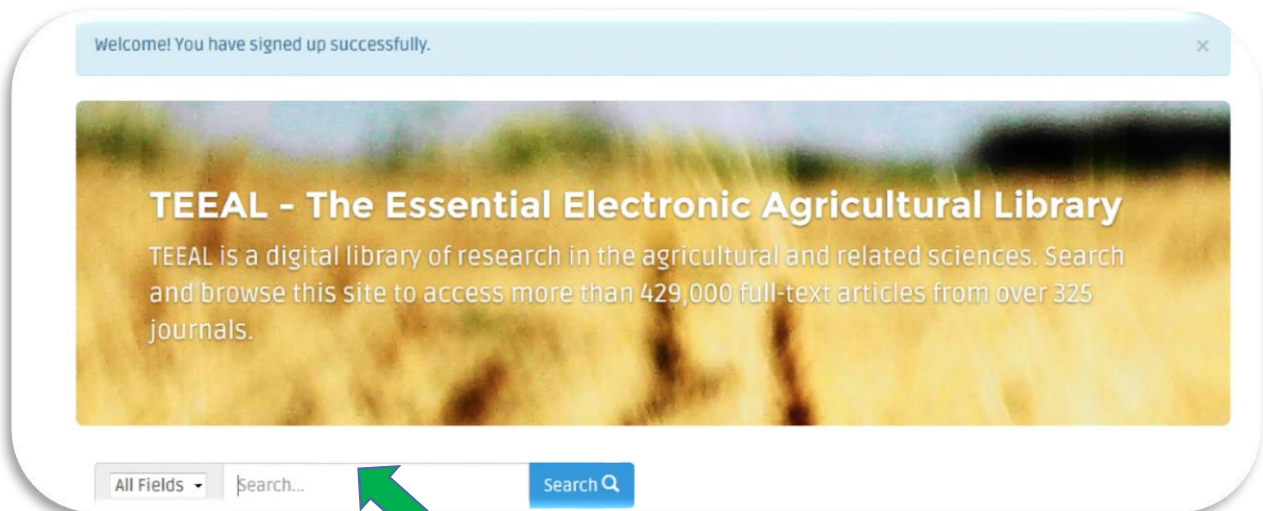

Key in your email address **where the arrow is pointing**, then select your affiliation e.g. student, staff, researcher then indicate your gender and sign up

Step three: Successful registration

A successful registration will prompt the following message: "Welcome! You have signed up successfully"

Step 4: Searching the database

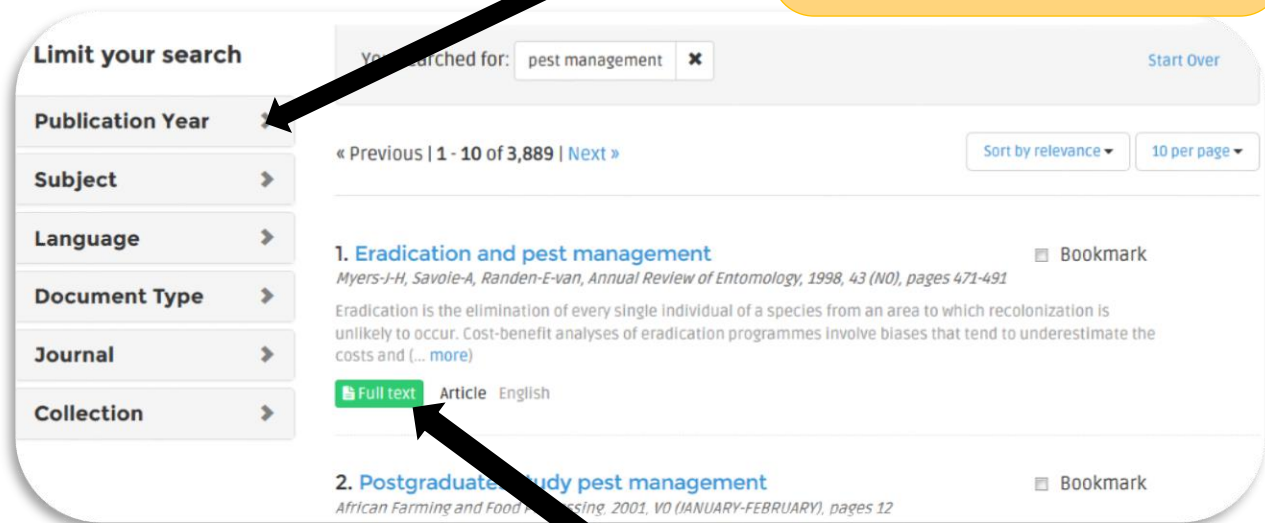

**Enter your search term
here in the search box
e.g. Pest Management**

After entering the above search term, below is what you will see

Step 5: Filtering your search and accessing full text articles

Click the year of publication to get the latest articles from here

Click on this green icon with Full text to get your article
